

Hajin Lee

Product Designer

Works at both ends of a product's life: launching from nothing, and rebuilding what already shipped. Research and information architecture through to the interface, then the front-end build. All of it comes down to where people look first and what they do next.

Experience

Graphic Designer Sep 2026 - Present
H Mart (BC HQ) | Full-time Port Coquitlam, BC
Design and produce the in-store graphics for about ten H Mart stores across BC: POP, posters for new products and promotions, event and notice signage, and the weekly flyer.
Manage H Mart's social media accounts and website, and post the weekly promotion designs to both.

UI/UX Designer Mar 2026 - May 2026
WeLAB Entertainment | Internship Vancouver, BC
Rebuilt and shipped a VFX and animation studio's site. Mapped the flows in Figma, then moved to WordPress and Bricks Builder, with custom code where Bricks ran out.
Designed and delivered 13 case-study pages, an interactive before-and-after shot slider, and a Spanish version for Mexican market. Lighthouse on the live site: SEO 100, accessibility 90.

Visual Merchandiser Apr 2022 - Sep 2024
Ryohin Keikaku Co., Ltd. (MUJI HQ) | Full-time Tokyo, Japan
Planned the in-store visual communication from head office: brand graphics, posters and display tools, and the floor layouts that set how customers moved.
Took on the duty-free shopping experience for inbound travellers, from the offer to the in-store signage. Sales to that segment rose an average of 14% quarter on quarter.

Auxiliary Police Officer Nov 2016 - Aug 2018
Seoul Metropolitan Police Agency | Mandatory Military Service Seoul, South Korea
Served with the Seocho 1st Mobile Unit and responded to 112 emergency calls, the national police dispatch line.
Guided visitors at the police station front desk and stood guard inside the station.

Education

Diploma in Digital Design and Development Sep 2024 - Jun 2026
British Columbia Institute of Technology Burnaby, BC
Developed skills in UX/UI design, frontend development, and digital media through project-based work on web and mobile apps, interactive media, and business solutions.

Bachelor of Fashion Design and Textiles Mar 2015 - Feb 2022
Inha University Incheon, South Korea
Studied Fashion Design with a focus on the end-to-end fashion process, including textiles, product planning, design, production, and merchandising.
